site care

It is essential that your website and the associated theme and plugins are kept up to date keeping your website secure. These updates also ensure your website is optimised and continues to run quickly, while taking advantage of the latest version features. Further boost your site with performance and security checks, stay informed of any issues with uptime and broken link monitoring and receive all of this information in a site report every month.

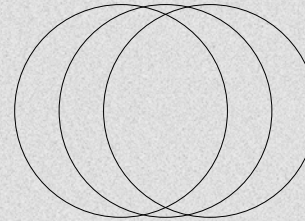

Vanilla

- Weekly Site Updates
- Weekly Backups
- Weekly Security Check

\$ 150 per year

Supreme

- Weekly Site Updates
- Weekly Backups
- Weekly Security Checks
- Weekly Speed Checks
- Uptime Monitoring
- Link Monitoring
- Quarterly Site Report

\$ 200 per year

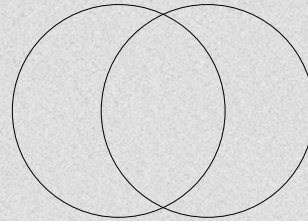

extras

Register a domain name and officially secured your brand, business or idea with its very own address on the internet. Now you can begin to create a space for your audience to visit.

If email is an important part of your business, you need a purpose—built hosted email solution with spam and virus filtering to ensure you never miss a message. Manage emails, organise and share calendars, sync your mobile devices, all based on an Australian secure and powerful mail server.

Let your visitors know that your website can be trusted and improve customer confidence with a premium SSL certificate to further encrypt traffic to and from your website.

Domains

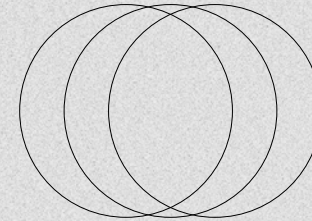

au / com.au / com / net.au
net / org.au / org / design
store / online / and more

- DNS Hosting
- Domain Privacy
- Domain Forwarding
- Free .au domain
